No. 1949-C/38-1.

Station Madras, *Dated the* 18th Jul 19 38

From (Name) Diwan Bahadur Dr. B.Sundara Raj, M.A., Ph.D.
(Designation) Director of Fisheries.

To The Secretary to the Government of Madras,
Development Department.

Sir,

Ref: G.O. No. 227 (B) Routine, Development, dated 4th September, 1933.

The Kaup Fisheries School was established on 1st April 1929 and in the usual course the Vth standard was opened on 26th May 1930. On the recommendation of the District Educational Officer, the District Educational Council recognised the Vth standard only on the condition that an additional teacher was appointed. The Government however were unable to sanction a teacher - vide G.O.No. 227 Routine, Development, dated 4th September, 1933, and the Government ordered that in future no new classes should

(B)

be opened without the sanction of Government if it involves extra recurring expenditure (paragraph 2 of Government Memorandum No. 1735-II/33-1 dated 30th June 1933). h 3 4 (B)

2. The strength in the different classes in the school on 1st June 1938 was as follows:--

Standard.	Strength.
I	28
II	12
III	6
IV	7
	53

A

The Headmaster reports that there are 6 pupils in the school who are fit for the Vth standard. But since the Vth standard has been closed, he has applied for permission to re-open the Vth standard and in anticipation of favourable orders has retained the pupils in the school. When the strength of these 6 pupils is added, the total will be 59. The strength of the classes when the District Educational Council recognised the Vth standard conditionally in 1933 was higher as follows:-

Standard.	Strength.
I	25
II	11
III	9
IV	8
V	9
	62

The only justification for the opening of the Vth standard now is that the present policy of elementary education is that every school should develop into a Vth standard school. B

3. With only two teachers for five classes as many as three standards will have to be combined under one teacher.

This will lead to want of discipline and inefficient teaching. In the circumstances, I have the honour to request you to be good enough to obtain the sanction of Government for the opening of the Vth standard. The proportion of the Ist standard children who have reached the Vth standard is very good and shows the efficiency of the school and a desire for education on the part of the people. It will be a pity if the children are forced to leave the school when they are anxious to continue their education. At present it is impossible to have greater strength in the upper classes but the strength is likely to grow. It is standard-V-children that benefit most and are likely to be an influence for literacy in the village. I therefore recommend strongly the appointment of an additional teacher.

I have the honour to be,

Sir,

Your most obedient servant,

B. Sundara Raj.

Director of Fisheries.

Please see Development notes on pp.1--2 aoove, and the draft order put up by them. With reference to portion 'X' on p.1 ante, it is submitted that revised instructions have very recently been issued in U.O.Note No.25663 B.G.-1 dated 25-7-38 on the suoject of the introduction of schemes of new expenditure in the course of a year. According to those instructions, schemes of new expenditure of a recurring* character, however trivial the cost of the scheme may be, can be introduced in the course of a year only if the scheme satisfies the two criteria mentioned in para 2 of that u.o. note. As those criteria are not satisfied in the present case, it is submitted that orders on it can be issued only after the scheme has first oeen considered as a Part II scheme for an ensuing year (e.g. 1939--40).

of portion I in (S)

V/7

In para 2 of the letter dt. 4.2.41 that the D.F. states that there are 6 pupils in the school who are fit for the V standard. If V standard is not opened these foster children will have to leave the school. The D.F. considers that this should not be allowed when the Children are anxious to continue their education. Further the present policy of elementary education is to make every school a V standard school. One of the objects of the Fisheries Dept. is the education of foster children and if the proposal for the opening V standard should be treated as a Part II scheme for 1939-40, the foster Children now fit for V standard will have to stop away leave the school. In the above circumstance it is submitted that the proposal is essential for carrying on the administration of education of foster children and that its postponement would cause hardship to foster children. As the proposal

A' on p 2 CF

Cf B' on p 3 CF

Cf B' on p 2 CF

seems to satisfy the Criteria ~~refer~~
required by the Finance Dept: it is
for consideration whether the proposal
need be treated as Part II scheme
for 1938-40.

p. 2 ante

If the V standard is not opened,
the boys will do nothing and lapse into illiteracy.
Primary education ~~with~~ in my School is not
complete ~~without~~ the opportunity of
completing at least V standard are
not available. The money spent on
educating boys for the first two or three
standards will have been woefully spent
if the boys are enabled to go up to and
finish the V standard. If in this case
one year is to elapse if the next higher class
is opened one batch of boys will have to ride
away therefrom. It is necessary and highly
desirable that the DI's proposal sld be
adopted.

(Previous Finance notes on pp.2-3 above).

Please see the further notes of Development on pages 3-6 and orders in circulation on p.6 above. On page 2 ante, this department suggested that the proposal in this case may be considered as a Part II scheme for 1939-40 along with similar proposals for fisheries schools. From the fact that Development have put forward the proposal in this file by itself, it would seem that they have no similar proposals on hand at present. In the circumstances, the draft note relating to the Part II scheme may be accepted, subject to the slight amendment indicated in pencil, the note by the Finance Department being as follows:-

"The proposal may be considered as a Part II scheme for 1939-40."

	Total ..	400	..	300	..

NOTE BY THE ADMINISTRATIVE DEPARTMENT.

The fisheries school at Kaup was established on 1st April 1929. It consists of four standards with a staff of two teachers. On the recommendation of the District Educational Officer, the District Educational Council recognized the opening of V standard in the school subject to the condition that an additional teacher should be employed. The strength in the different classes on the 1st June 1938 was as follows :—

Standard.	Strength.
I	28
II	12
III	6
IV	7
Total ..	53

It is reported that there are six pupils in the school who are fit for the V standard. The present policy of elementary education is that every school should develop into a V standard school. The Director of Fisheries has therefore submitted proposals for the opening of V standard and for the employment of an additional higher elementary grade teacher in the fisheries school at Kaup. This department supports the Director's proposals and recommends the inclusion of a provision of Rs. 300 in the Budget Estimate for 1939-1940. The additional teacher will be on a temporary basis in the first instance.

C. J. PAUL—1-9-38.

NOTE BY THE FINANCE DEPARTMENT.

The proposal may be considered as a Part II Scheme for 1939–40.

T. N. S. RAGHAVAN—10-9-38.
